

## Product Features

- Pass-through parallel connection
- Includes BioLogon™ Client for Windows® Security Software
- Windows® 95/98/NT 4.0 compatible
- Identix DFR®-200 fingerprint reader
- Utilizes BioEngine™ 1:1 minutiae based algorithm
- Template size: 256 Bytes typical

Powered by Identix's  
BioLogon™ Software

## Fingerprint Reader for PC System Access

The MT Digit is an accurate, affordable, and easy to use fingerprint reader for secure PC system access. Aimed at both the corporate network and home desktop, the MT Digit authenticates user access using proven biometric technology, raising the bar for data access security. With access granted in less than one second, the MT Digit does away with the hassles involved in remembering and keying in passwords.

The MT Digit plugs into the PC's parallel port and offers the user a parallel pass-through feature which ensures the printer, fingerprint reader, or any other parallel port device remains online. The MT Digit can be used on any network or stand-alone PC running Windows® 95/98 or Windows® NT® 4.0. New user registration, including fingerprint registration and management, is performed by the familiar Windows® NT User Manager. The MT Digit utilizes Identix's DFR®-200 fingerprint reader and is powered by Identix's BioLogon™ network security software.

## product specifications

### Hardware

- Parallel ports supported: SPP (PS/2), EPP, ECP
- Parallel port with pass-through connection: 25 pin D type
- FCC class B and CE certified

### Software: BioLogon™ Client

- Logon with your finger
- Fast and accurate
- Supports multiple fingers per user
- Integrated with Microsoft's Network Security Architecture

### Biometrics

- Identix DFR®-200 Fingerprint Reader
- Powered by BioEngine™ fingerprint matching algorithms

### Requirements

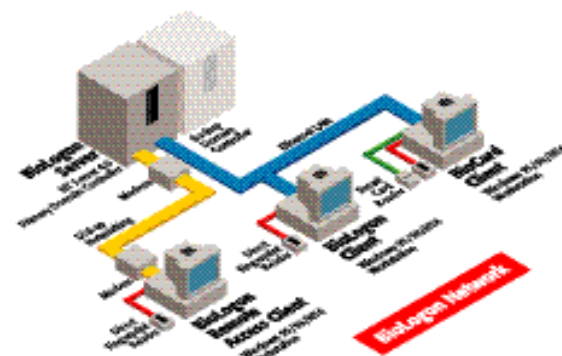

- Microsoft® Windows® 95/98 OSR2 or Microsoft® Windows NT® 4.0 operating system with service pack 3 or higher Minimum Requirements
- 486/33DX or higher processor
- 16MB of RAM minimum
- 10 MB available hard disk space
- Parallel port for fingerprint reader
- PS/2 port for power supply
- CD-ROM drive unless installing software from a network
- VGA or higher resolution

### Compatible Software

- **BioLogon 2.0 Server for Windows®:** Enterprise Network Security
- **BioCard™ Client:** add smart card to BioLogon™ Client
- **BioSafe™:** encrypt/decrypt data with your finger
- **BioShield™:** password bank & application locking
- **BioLogon SDK:** integrate BioLogon™ with other applications
